Asociación Salesiana de Don Bosco (ASDB), San Pedro Carchá, Alta Verapaz

Financing

German Financial Cooperation / KfW

Period

1998 - 2001

Value of Services

0.400 million US\$

Project Description

The Project's objective is the improvement and extension of bilingual training of rural teachers and the promotion of community work in the Alta Verapaz Province. In order to augment the Salesian teachers' training capacity, the following programme for construction and supply was established:

- Construction of a new training centre for some 300 female boarding students at Carolina, including the procurement of the corresponding equipment
- Extension of three existing training centres with a total capacity of some 700 boarding students, including the procurement of the corresponding equipment
- Construction of five pilot rural primary schools
- Development and production of training material for primary education
- Advisory services for bilingual education (provided by a national university)

Scope of Services

Provision of short-term intermittent and long-term advisory services to the Client in:

- Establishment of an appropriate organisational structure for project implementation (logistics, communications, monitoring)
- Organisation of work, selection and hiring of supervisory personnel and manpower
- Planning, tendering and supervision of construction works
- Design, tendering, contracting, reception and distribution of supplies
- Preparation of a concept for sustainable maintenance
- Budgeting and control of external funds utilisation
