Project Description

The Governments of Lao PDR and Germany have decided to supplement the on-going Technical Assistance (TA) provided by GTZ in implementing the market and employment oriented Integrated Vocational Education and Training System (IVETS) by a Financial Cooperation (FC) component.

This FC component intends to increase the capacity of the vocational and teacher training institutions by their extension and modernisation, procurement of teaching equipment and training facilities.

The selected institutions (IVET School Bokeo, IVET School Xiengkhouang, IVET School Oudom Xay) will prepare business plans for sustainable enhancement of selected training with state of the art equipment.

Scope of Services

Technical Assistance for the Design, Implementation and Quality Control of the programme.

Construction Measures

- Preparation/review of implementation plans of each individual IVET;
- Identification and design of the necessary new constructions and/or rehabilitation of existing buildings;
- Tendering, supervision and quality control of construction

Procurement of Vocational and School Equipment

- Detailed planning of the equipment to be tendered;
- Elaboration of tender documents, evaluation of tenders, contract negotiations; and
- Purchase of equipment incl. supervision of delivery and installation
- Implementation of an Equipment Maintenance Plan

Training Measures

- Identification of training requirements for personnel of the participating institutions for the new equipment;
- Elaboration of in-depth training measures to the trainers and teachers on the newly installed equipment
